This Special Home is the first juvenile School, started on 18th century in India. This Special home (only one in TN) functions as Juvenile Rehabilitation Centre for Delinquent Children. We had interaction with Superintendent Mr Thanasekara Pandian and his six dedicated teammates.

Currently there are 35 Students are there. We visited complete school and interacted with set of the student to understand there need. They have wide variety of needs like sports material, gym, library, bike mechanical training, gardening training, movies, papers, computer games, computer training, etc. After that we interacted with some individual students to understand there requirement and there career path.

I had discussion with one of the student(Prabhu), He complete 10th standard and having 380 marks. Currently he wants to write +2 exam and very much interested to take science group in +2. After that he wants to do degree and prepare for IAS exam. He wants to be IAS Office in his life. He is very clear in while speaking and given the list of requirement for this school. I am really wondering why this guy in this school ?!, Yes, "Some time situation will decide, Where you want to be. Not U - Small mistake will make huge impact in our life, who knows!?"

We are setting up a Computer Learning centre in this Special Home and giving Learning Materials CD. Also, We are giving sports Kits, study materials for +2 Students and Setting up a Library. All this activities are co-ordinated by Mr.karthikeyan Mani

Visit to Baale Mane Girls Home Gopalapura Bangalore:

[IS Karnataka]

Date: 27th Feb 2010 Saturday

Member: Raghavendra & Udhaya Kumar

Presently there are 57 students in this school, studying in the nearby schools. Most of the students required some tuition in the evenings to improve their knowledge and get good marks. Especially the need of tuition is in the subjects – English, Maths and Science. There is need for career guidance also.

They have small library and few computers (no UPS).
